#### **Course Objectives:**

Office tools course would enable the students in crafting professional word documents, excels preads heets, Power Point presentations using the Microsoft suite of office tools. To familiarize the students nor preparation of documents and presentations with office automation tools where the presentation of the presentation

#### **Expected Course Outcomes:**

On the successful completion of the course, student will be able to:

| Use Microsoft Office programs to greate personal goods

1	Use Microsoft Office programs to create personal, academic and business documents following current professional and/or industry standards.	K1
2	Create scientific and technical documents incorporating equations,	K2
	images, tables, and bibliographies.	IX2
3	Develop technical and scientific presentations which use charts and	K3
	visual aids to share data.	KS
4	Build spreadsheets to perform calculations, display data, conduct	K4
	analysis, and explore.	K4
5	Design and construct databases to store, extract, and analyze scientific	K5
	and real-world data.	I NJ

K1 - Remember; K2 - Understand; K3 - Apply; K4 - Analyze; K5 - Evaluate; K6 - Create

Unit:1 WORD 15-- hours

**Introduction to Word Processing -** features, creating, saving and opening documents in Word. Overview of word menu options - word basic tool bar.

Editing and Formatting: Paragraph formats, aligning text and paragraph, borders and shading - headers and footers

**Insert options:** - insert picture – smart art – superscript & subscript – mathematical formulas – special characters – columns

**Tables** - creating table - graphics – importing graphics – clipart - insert picture.

Mail Merge: mail merge concept - merging data source and main document.

**Design:** Cover page of a book – Business cards, Index page.

Unit:2 POWER POINT 15-- hours

**Introduction to Power Point basics** – terminology - getting started with power point window – menus and tool bars- creating presentations - using auto content wizard - using blank presentation option - using design template option.

**Working with slides** -make new slide, move, copy, delete, duplicate, lay outing of slide-applying transition and animation effects.

Editing and formatting text: alignment, editing, inserting, deleting, selecting, formatting of text, bullets, footer, paragraph formatting.

Unit:3	EXCEL	15 hours

**Worksheet basics- Features of MS Excel** – spread sheet / worksheet, workbook creating worksheet, entering data into worksheet- parts of MS excel window - toolbars and menus, keyboard shortcuts - Entering and editing data in worksheet – cell range – formatting – auto fill –formulas and its advantages. Charts – graphs.

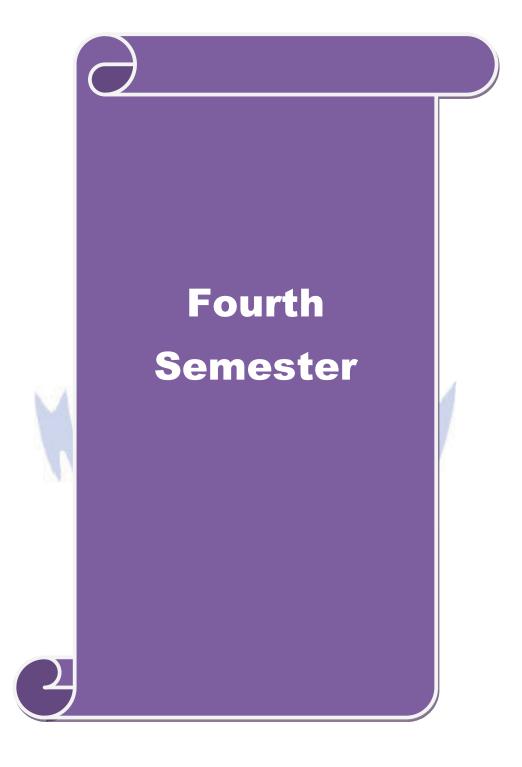

Unit:4 ACCESS 13-- hours

**Introduction to Databases**- Why use a Relational Database, concept of primary key relationship- Creating and Working with a Database-Creating a New Database-Creating a Table-Modifying a Table-Creating a Query-Sorting a Query-Creating a Form with the Form Wizard-Creating a Report with the Report Wizard-Creating Mailing Labels with the Label Wizard-Converting an Access Database

Core - IX Pre-requisite	For BBA/BBA(CA)/BBA(IB)/BBA(RM)  Principles of Management	5 Sylla	- Fir	4 st
Pre-requisite	Principles of Management	Sylla Versi	Fir	st

#### **Course Objectives:**

- 1. To provide the students with knowledge on concepts, theories, scope and development of Human Resource Management practice at both National and global level.
- 2. To understand human relation skills of drafting a Job Description, Job Specification, Job Design.
- 3. To produce information regarding the effectiveness of recruiting methods, selection procedures and make appropriate staffing decisions.
- 4. To develop a training program using a useful framework for evaluating training needs, designing a training program, and evaluating training results and evaluate a company's implementation of a performance-based pay system.
- 5. To gain knowledge HRM and its significance in business.

#### **Expected Course Outcomes:**

On the successful completion of the course, students will be able to:

011	the successful completion of the course, students will be unit to.	
1	Analyze the process of Job analysis and its importance as a foundation of	K3
	human resource management practice.	
2	Understand the Human resource planning	K4
3	Apply the policies and practice of the primary areas of human resource	K3
	management, including staffing, training and compensation.	
4	Understand the importance of career planning and succession planning	K4
5	Apply the policies and practice of the primary areas of human resource	K2
	management, including staffing, training and compensation	

K1 - Remember; K2 - Understand; K3 - Apply; K4 - Analyze; K5 - Evaluate; K6 - Create

#### Unit – 1 Concept of Human Resource Management

12 Hours

Human Resource Management - meaning, nature, scope and objective – Functions of HRM - The Role & status of HR manager - Organisation of HR department – Strategic HRM

#### Unit – 2 **Human Resource Planning**

12 hours

Human Resource Planning – Job Analysis – Importance & benefits - Job analysis process – Job description – Role analysis - Job specification

#### Unit – 3 **Recruitment and Selection**

12 hours

Recruitment and Selection - Factors affecting Recruitments, Sources of Recruitment – Alternative to Recruitment – Definition and Importance of Selection, Stages involved in Selection Process – Types of Selection Tests and Types of Interviews

#### Unit – 4 **Training and development**

12 hours

Meaning and benefits of Induction, Content of an Induction Program – Training and Development. – Performance appraisal - Job evaluation and merit rating - Promotion - Transfer and demotion

Unit - 5 Career Planning & Development	12 hours
Career Planning & Development – Stages in Career Planning – Internal and Exter	
Mobility of Employees — Meaning and Sources of Employee Grievance – Grieva	
Handling Systems - Meaning & Process of Collective Bargaining - Indiscipline, S	ettlement

The main objectives of this course are:

- 1. To acquire the knowledge of Financial Management.
- 2. To learn different concepts of Financing Decisions.
- 3. To enable awareness on the Capital Structure in which Financial Management operate.
- 4. To develop an understanding of tools on Working Capital Management.
- **5.** To provide knowledge using concepts, methods & procedures involved in Budgeting.

# **Expected Course Outcomes:**

# On the successful completion of the course, students will be able to:

1	Understand basic Accounting concepts and principles	K3			
2	Be able to generate Accounting and Inventory Masters, Vouchers and Basic Reports in Tally				
3	Understand Advanced Accounting and Inventory in Tally. ERP 9	K3			
4	Have an understanding of Advanced Accounting and Inventory in Tally.ERP 9				
5	Understand basic concepts and practical application of VAT, CST, TDS and Service Tax	K2			

# K1 - Remember; K2 - Understand; K3 - Apply; K4 - Analyze; K5 - Evaluate; K6 - Create

# Unit:1 Introduction

9 Hours

Introduction to TALLY ERP 9- Salient features – Accounting Features – Enhancements – Hardware Requirement- Components of TALLY ERP 9 – Creation and Alteration of Company.

# Unit:2 Stock Groups

8 Hours

Introduction to Stock Groups- Stock Categories – Stock Items- Godowns – Units of Measurement.

# Unit:3 Groups

8 Hours

Introduction to Groups – Ledgers – Voucher Type – Purchase Orders – Sales Orders – Invoices.

# Unit:4 Reports

9 Hours

Reports in TALLY ERP 9 –Working with Balance Sheet- Profit & Loss Account- Stock Summary Report – Ratio Analysis – Trial Balance – Day Book. Introduction to Payroll – Employee Categories – Employee Groups – Employees- Attendance Production types- Pay Heads- Payroll Vouchers Entry/ Transactions – Payroll reports.

Un	it:5	Service Tax	9 Hours				
Intr	Introduction to Service Tax – Tax Collected at Source- Tax Deducted at Source- Value						
Ado	Added Tax -Goods and Service Tax- Activating GST for your company- Deactivating VAT,						
Exc	Excise and Service Tax Features – Creating Tax Ledger-Expense Ledger- Party Ledger.

- 1. Provide students with comprehensive knowledge and technical skills needed to successfully participate in and support the increasingly applied role of information technology in corporate decision making.
- 2. Enable students to conceptualize and manage the specification, design and implementation of applied information systems.
- 3. Provide the knowledge of contemporary issues related to the field of managing information systems.
- 4. Develop technical knowledge and skills required to work effectively in a profession.
- 5. Enhance self-confidence, ability to make proper decisions and effective communication.

# **Expected Course Outcomes:**

# On the successful completion of the course, student will be able to:

1	Apply modern tools, techniques and technology in a functional and productive	K3
	manner in Professional Activities.	
2	Analyze, Design, Construct, Implement and Maintain, Usable, Reliable and	<b>K6</b>
	Cost-Effective Information Systems (IS) that support Operational, Managerial	
	and Strategic activities of Organizations.	
3	Study and evaluate existing manual and automated business processes and	K5
	identify opportunities for re-engineering and/or automation.	
4	Coordinate confidently and competently with the user community in IS	<b>K3</b>
	requirements analysis/design activities, provide guidance and technical support	
	to end user computing activities.	
5	Analyze the impact of computing on individuals, organizations and society,	K4
	including ethical, religious, legal, security and global policy issues.	

K1 - Remember; K2 - Understand; K3 - Apply; K4 - Analyze; K5 - Evaluate; K6 - Create

# Unit:1 INTRODUCTION TO INFORMATION SYSTEMS

12 Hours

 $\label{lem:matter} Introduction \ to \ Information \ Systems - Definition - Features - Steps \ in \ Implementing \ MIS - Need for \ Information - Information \ System \ for \ Decision \ Making - MIS \ as \ Competitive \ Advantages - MIS \ structures.$ 

#### Unit:2 MIS FUNCTION

2 Hou

MIS - Strategic information system - MIS support for Planning - Organizing - Controlling - MIS for specific functions - Personnel, Finance, Marketing, Inventory and Production. Data Base Management System Models - Hierarchical - Network - Relational.

# Unit:3 HARDWARE AND SOFTWARE

11 Hours

Computer Hardware - Description of Electronic Computers - CPU operations - Classification of Computers - Main - Mini - Workstations - Micro Computers - Super Computers - Personal Computers. Computer Software - Types of Software - Data

Representation in Computers. Introduction to Client - Server.

# Unit:4 INPUT AND OUTPUT DEVICES

11 Hours

Input devices - mouse - touch screens - MICR - OCR - keyboard - pen based Input - digital scanners - voice input devices - sensors. Output devices - impact printers - nonimpact printers - video display terminals - plotters - voice output devices. Secondary storage devices - magnetic disk, floppy, magnetic tape, optical disk storage - CD-ROM.

# Unit:5 TELECOMMUNICATION REVOLUTION

12 Hours

Telecommunication revolution - Introduction to Email, internet, intranet and teleconferencing, www architecture, Introduction to E-Commerce - models B\_B and B\_C. EDI - EDI applications in business. Electronic payment of cash: smart cards - credit cards.

Course code	RDBMS AND ORACLE PROGRAMMING- PRACTICAL For BBA (CA)	L	Т	P	C
CORE - XX		-	-	2	2
Pre-requisite	Computer Knowledge and PC skills	Sylla Vers		Fir	st

**Course Objectives:** 

To design and build a simple database system and demonstrate competence with the fundamental tasks involved with modeling, designing, and implementing a DBMS.

To Create database-level applications using Oracle PL/SQL. Participants will be exposed to various advanced PL/SQL techniques for building and tuning robust business applications.

# Don the successful completion of the course, student will be able to: Write stored procedures, functions, packages, and triggers, and implement complex business rules with oracle Interpret different Queries to access the database. Underline Functional Dependency and Functional Decomposition. Apply various Normalization techniques. Write SQL code based on ANSI/ISO standards to build and maintain database K3

K1 - Remember; K2 - Understands; K3 - Apply; K4 - Analyze; K5 - Evaluate; K6 - Create

Manipulate PL/SQL programming using concept of Cursor Management,

Unit:1 28- hours

# LIST OF PROGRAMMES

structures

- 1. Design a database for student information
- 2. Insert records for student database table
- 3. Alter a field size in the student database table.
- 4. Delete a field in the student students database table.
- 5. Select records with roll number, name, class, subject with all mark details.
- 6. Prepare a list of all student who are having arrears
- 7. Find the percentage of marks of a student
- 8. Find the pass percentage of a subject in student database
- 9. Prepare semester mark sheet for a given student roll number
- 10. Design a database for employee information
- 11. Insert records for employee database table
- 12. Select records with employee id ,name, department, designation with all salary details.
- 13. Prepare a list of employees who are getting net pay more than 10000.
- 14. list all employees with total allowances and total deductions.
- 15. List all employees with their net pay
- 16. Design a database for bank information
- 17. Insert records for bank database table.

- 18. Create a view for an employee with their deposit information.
- 19. Write a stored function to find net balance of a customer.
- 20. Write a PL/SQL procedure to deposit amount to bank database.

Pre-requisite	Business Law	Sylla Vers		Firs	st
Elective- I (A)		5	-	-	4
Course code	INTELLECTUAL PROPERTY RIGHTS FOR BBA, BBA CA ,BBA RM AND BBA IB	L	Т	P	C

The main objectives of this course are to:

- To aspects of Intellectual property Rights to students who are going to play a major role in development and management of innovative projects in industries.
- To disseminate knowledge on patents, patent regime in India and abroad and registration aspects
- To disseminate knowledge on copyrights and its related rights and registration aspects
- To disseminate knowledge on Design, Geographical Indication (GI), Plant Variety and Layout Design Protection and their registration aspects
- To aware about current trends in IPR and Govt. steps in fostering IPR

# **Expected Course Outcomes:**

On the successful completion of the course, student will be able to:

1	The students once they complete their academic projects, shall get an adequate knowledge on patent and copyright for their innovative research works	K2
2	During their research career, information in patent documents provide useful insight on novelty of their idea from state-of-the art search. This provide further way for developing their idea or innovations	K2
3	Pave the way for the students to catch up Intellectual Property(IP) as an career option R&D IP Counsel, Government Jobs – Patent Examiner, Private Jobs, Patent agent and Trademark agent, and Entrepreneur	К3
4	Develop knowledge on trademarks and registration aspects	K4
5	Have a simple and basic comprehension of the Indian scenario with regard to IPR act	K5

K1 - Remember; K2 - Understand; K3 - Apply; K4 - Analyze; K5 - Evaluate; K6 - Create

# Unit:1 OVERVIEW OF INTELLECTUAL PROPERTY 11-- hours

Introduction and the need for intellectual property right – IPR in India – Genesis and Development IPR in abroad Some important examples of IPR – Different Classifications – Important Principles Of IP Management – Commercialization of Intellectual Property Rights by Licensing – Intellectual Property Rights in the Cyber World.

Unit:2	PATENTS	11 hours
Introduction -	- Classification -Importance - Types Of Patent Applications In	n India –

Patentable Invention – Inventions Not Patentable.

Unit:3	TRADE MARKS	12 hours
Introduction	- Fundamentals - Concept - Purpose - Functions - Character	ristics – Guidelines

For Registration of Trade Mark – Kinds of TM – Protection – Non Registrable Trademarks Industrial Designs – Need for Protection of Industrial Designs – Procedure for obtaining Design Protection.

#### Unit:4 COPY RIGHT

**12--** hours

Introduction to Copyright – Conceptual Basis – Copy Right And Related Rights – Author & Ownership of Copyright - Rights Conferred By Copy Right- Registration – Transfer – Infringement – Copyright pertaining to Software/Internet and other Digital media.

# Unit:5 Geographical Indications and Plant Varieties & Farmers Right

**12--** hours

GEOGRAPHICAL INDICATIONS: Concept of Appellations of Origin, Indication of Source and Geographical Indication – What is a geographical indication? How is a geographical indication protected? Why protect geographical indications? Classical examples and its case study NEW PLANT VARIETIES: Protection of Plant Varieties and Farmers' Rights, Authority and Registry – Why protect new varieties of plants? How can new plants be protected? What protection does the breeder get? How long do the breeder's rights last? How extensive is plant variety protection?

Course code	INTRODUCTION TO INDUSTRY 4.0 FOR BBA, BBA CA, BBA RM AND BBA IB	L	T	P	C

At the end of completing this course, students will have knowledge on Industry 4.0, need for digital transformation and the following Industry 4.0 tools:

- 1. Artificial Intelligence
- 2. Big Data and DataAnalytics
- 3. Internet of Things

# **Expected Course Outcomes:**

On the successful completion of the course, student will be able to:

	_	
1	Understand the drivers and enablers of Industry 4.0	K2
2	Appreciate the smartness in Smart Factories, Smart cities, smart products and smart services	K2
3	Able to outline the various systems used in a manufacturing plant and their role in an Industry 4.0 world	К3
4	Appreciate the power of Cloud Computing in a networked economy	K4
5	Understand the opportunities, challenges brought about by Industry 4.0 and how organisations and individuals should prepare to reap the benefits	K5
+		

K1 - Remember; K2 - Understand; K3 - Apply; K4 - Analyze; K5 - Evaluate; K6 - Create

# Unit:1 Industry 4.0 11-- hours

Need – Reason for Adopting Industry 4.0 - Definition – Goals and Design Principles - Technologies of Industry 4.0 – Big Data – Artificial Intelligence (AI) – Industrial Internet of Things - Cyber Security – Cloud – Augmented Reality

# Unit:2 Artificial Intelligence 11-- hours

Artificial Intelligence: Artificial Intelligence (AI) – What & Why? - History of AI - Foundations of AI - The AI - environment - Societal Influences of AI - Application Domains and Tools - Associated Technologies of AI - Future Prospects of AI - Challenges of AI

# Unit:3 Big Data and IoT

**12--** hours

Big Data: Evolution - Data Evolution - Data: Terminologies - Big Data Definitions - Essential of Big Data in Industry 4.0 - Big Data Merits and Advantages - Big Data Components: Big Data Characteristics - Big Data Processing Frameworks - Big Data Applications - Big Data Tools - Big Data Domain Stack: Big Data in Data Science - Big Data in IoT - Big Data in Machine Learning - Big Data in Databases - Big Data Use cases

Big Data in Social Causes - Big Data for Industry -Big Data Roles and Skills -Big Data Roles - Learning Platforms; Internet of Things (IoT): Introduction to IoT - Architecture of IoT -

Technologies for IoT - Developing IoT Applications - Applications of IoT - Security inIoT

# Unit:4 Applications and Tools of Industry 4.0

**12--** hours

Applications of IoT – Manufacturing – Healthcare – Education – Aerospace and Defense – Agriculture – Transportations and Logistics – Impact of Industry 4.0 on Society: Impact on Business, Government, People. Tools for Artificial Intelligence, Big Data and Data Analytics, Virtual Reality, Augmented Reality, IoT, Robotics

# **Unit:5 Jobs 2030**

**12--** hours

Industry 4.0 – Education 4.0 – Curriculum 4.0 – Faculty 4.0 – Skills required for Future - Tools for Education – Artificial Intelligence Jobs in 2030 – Jobs 2030 - Framework for aligning Education with Industry 4.0

# **Unit:6** Contemporary Issues

Course code	INSURANCE PRINCIPLES AND PRACTICE FOR BBA/BBA (CA)	L	Т	P	C
Elective- II (		5	-	-	4
Pre-requisite	Financial Management	"	labus sion	Fi	rst
Course Object	tives:	'			

The main objectives of this course are to:

- 1. This course intends to provide a basic understanding of the insurance mechanism, risk insurance, insurance market operations, and insurance contracts.
- 2. An overview of major life insurance and general insurance products are discussed.

# **Expected Course Outcomes:**

On the successful completion of the course, student will be able to:

	1				
1	Examine the risk and relevance involved in insurance industry and to suggest				
	the importance of insurance.				
2	Explain the importance of life insurance, terms and conditions of insurance,	K2			
	contract and products.	K2			
3	Insight the knowledge of general insurance practice, laws, terms and conditions,				
	claim and procedure of insurance.				
4	Differentiate the fire and marine insurance, general insurance, loss and recover.	K4			
	To study the terms and conditions of insurance.	N4			
5	To Evaluate other business insurances and practices of Health insurance in	K5			
	Indian climate.	N.J			

K1 - Remember; K2 - Understand; K3 - Apply; K4 - Analyze; K5 - Evaluate; K6 - Create

# Unit:1 | CONCEPT OF RISK IN INSURANCE & IRDA | 12-- hours

Defining Risk and Uncertainty - Classification of risk - Management of risk - loss minimization techniques. Insurance - Meaning, nature and significance of Insurance, Insurance market, principles of insurance; Evaluation insurance business in India; Insurance Regulatory Development Authority (IRDA) - Recent Developments in the Insurance sector.

# Unit:2 LIFE INSURANCE

**12--** hours

Life Insurance - Law relating to life Insurance; General Principles of Life Insurance Contract - different products offered by life insurers- Premiums and bonuses - Assignment,
Nomination and Surrender of policy - Policy claims; ULIPs; Postal Life Insurance; LIC Role and functions.

# Unit:3 GENERAL INSURANCE

12-- hours

General Insurance - Law relating to general insurance; different types of general insurance; general insurance Vs life insurance; Proposal form- Cover notes – Endorsement.

Underwriting policy; Role of Actuary; Renewal procedure; Claims – Surveyors and loss assessors. Reinsurance - Function of General Insurance Corporation of India.

# Unit:4 FIRE & MARINE INSURANCE CLAIMS

**11--** hours

Fire insurance - various types of fire policy; coverage's; subrogation; double insurance; contribution; proximate cause; claims of recovery. Marine Insurance - Law relating to marine insurance; scope and nature; types of policy; insurable interest; disclosure and representation; insured perils; proximity cause; voyage; warranties; measurement; subrogation; contribution; under insurance.

# Unit:5 MISCELLANEOUS INSURANCE

11-- hours

Miscellaneous Coverages - Motor Insurance - Liability only policy - Package policy. Nature, terms and conditions of Health Insurance - Personal Accident insurance - Burglary insurance - Legal Liability insurance - Engineering insurance - Rural insurances - Micro insurance.

# Unit:6 CONTEMPORARY ISSUES

2 -hours

Expert lectures, online seminars – webinars

# Recent Trends in Insurance Industry

# **Total Lecture hours**

Course	BIG DATA ANALYTICS	L	Т	P	C	
	FOR BBA ,BBA CA ,BBA IB AND BBA RM					
Elective- II (E)		5	<u> </u>	-	4	
Pre-requisite	Quantitative techniques for Management		Syllabus Version		First	

The main goal of this course is to help students learn, understand, and practice big data analytics and machine learning approaches, which include the study of modern computing big data technologies and scaling up machine learning techniques focusing on industry applications. Mainly the course objectives are: conceptualization and summarization of bigdata and machine learning, trivial data versus big data, big data computing technologies, machine learning techniques, and scaling up machine learning approaches.

# **Expected Course Outcomes:**

On the successful completion of the course, student will be able to:

1	Identify and distinguish big data analytics applications	K2
2	Describe big data analytics tools	K2
3	Explain big data analytics techniques	K3
4	Present cases involving big data analytics in solving practical problems	K4
5	Conduct big data analytics using system tools and Suggest appropriate solutions	K5
	to big data analytics problems	KS

K1 - Remember; K2 - Understand; K3 - Apply; K4 - Analyze; K5 - Evaluate; K6 - Create

# Unit:1 INTRODUCTION

**11--** hours

Introduction – Data – Information – Data Terminologies – Database – Data Mining – Data Warehouse – Data Evolution Roadmap – Big Data – Definition – Type of Data - Numeric – Categorical – Graphical – High Dimensional Data — Data Classification – Hot Data – Cold Data – Warm Data – Thick Data – Thin Data - Classification of digital Data: Structured, Semi-Structured and Un-Structured- Data Sources - Time Series – Transactional Data – Biological Data – Spatial Data – Social Network Data

## Unit:2 DATA SCIENCE

**11--** hours

Data Science-A Discipline – Data Science vs Statistics, Data Science vs Mathematics, Data Science vs Programming Language, Data Science vs Database, Data Science vs Machine Learning. Data Analytics – Relation: Data Science, Analytics, Big Data Analytics. Data Science Components: Data Engineering, Data Analytics-Methods and Algorithm, Data Visualization

# Unit:3 BIG DATA

**12--** hours

Digital Data-an Imprint: Evolution of Big Data – What is Big Data – Sources of Big Data. Characteristics of Big Data 6Vs – Big Data Myths - Data Discovery-Traditional Approach, Big Data Technology: Big Data Technology Process – Big Data Exploration - Data Augmentation – Operational Analysis – 360 View of Customers – Security and Intelligence

#### Unit:4 BIG DATA TECHNOLOGY

**12--** hours

Big Data Technology Potentials – AI – Machine Learning – Cloud Computing – Mobile Communication – IoT – Big Data in Industry 4.0- Big Data Platforms – HADOOP – SPARK – No SQL Databases - Types - Big Data Challenges

# Unit:5 BIG DATA USE CASES

**12--** hours

Big Data Roles Data Scientist, Data Architect, Data Analyst – Skills – Case Study: Big Data – Customer Insights – Behavioural Analysis – Big Data Industry Applications - Marketing – Retails – Insurance – Risk and Security – Health care

### Unit:6 CONTEMPORARY ISSUES

2 hours

Expert lectures, online seminars – webinars

# **Total Lecture hours**

**60--** hours

Course	E-COMMERCE FOR BBA, BBA CA, BBA IB AND	L	Т	P	C

#### **Course Objectives:**

The main objectives of this course are to:

- 1. To know about e-commerce models and its practical applications
- 2. To understand customer buying behaviour in e-commerce and ways to retain them through effective web advertising.
- 3. To know the role of Government in securing the rights of customers

# **Expected Course Outcomes:**

On the successful completion of the course, student will be able to:

1	To Understand e-commerce models -its benefits and limitations	K2
2	To use of market research tools in analyzing customer buying behavior	K3
3	To analyse the web advertising modes	K4
4	To understand the application of B2B e-commerce model	K2
5	To critically evaluate public policy on privacy and security	K5

K1 - Remember; K2 - Understand; K3 - Apply; K4 - Analyze; K5 - Evaluate; K6 - Create

### Unit:1 INTRODUCTION TO E-COMMERCE

11 Hours

Foundation of electronic Commerce: Definition and content of the field – Driving force of EC-Impact of EC – Managerial Issues- Benefits and Limitations of EC Retailing in EC:: Business models of E – marketing – Aiding comparison shopping - The impact of EC on Traditional Retailing System.

### Unit:2 MARKET RESEARCH

12 Hours

Internet Consumers and market Research: - The consumer behavior model – Personal Characteristics and the Demographics of internet Surfers - Consumer Purchasing Decision making - One – to – One Relationship marketing - Delivering Customer Service in Cyberspace – Marketing research of EC-Intelligent Agents for Consumers – Organizational Buyer Behavior.

# Unit:3 WEB ADVERTISING

12 Hours

Advertisement in EC:- Web Advertising – Advertisement Methods – Advertisement Strategies – Push Technology and Intelligent Agents – Economics and Effectiveness of Advertisement – Online Catalogs. Internet and Extranet:- Architecture of Intranet and External:- Applications of Intranet and Extranet

#### Unit:4 B2B EC MODEL

12 Hours

Business - to - Business Electronic Commerce: Characteristics of B2B EC- Model-

Procurement Management Using the Buyer's Internal Market Place – Supplier and Buyer Oriented Marketplace – Other B2B Models Auctions – and Service – Integration with back End Information System The Role of S/W Agents in B2B – Electronic Marketing in B2B.

### Unit:5 PUBLIC POLICY

11 Hours

Public Policy: From Legal Issues to Privacy:- Legal, Ethical and Other Public Policy Issues – Protecting Privacy – Free Speech, Internet Indecency Censorship – Taxation and Encryption Policies and Seller Protection in EC.

# Unit:6 CONTEMPORARY ISSUES

2 hours

Expert lectures, online seminars – webinars

**Total Lecture Hours: 60 Hours** 

#### **Text Books:**

Kalakotta, Elements of E Commerce

#### Reference books

Efraim Turbun, Jae Lee, David King, H. Michael Chung —Electronic Commerce – A Managerial Perspective, Pearson Education Asia – 2000.

# Bachelor of Business Administration (BBA) All streams Skill Based Subjects I – IV from III to VI semester Curriculum Framework

#### **Need for the course**

In order to effectively deploy the graduates for productive purposes of the society at large, it is imperative that the learners should equip themselves with effective communication skills. The lack of which could be a serious concern to all concerned. Developing explicitly this skill-set will definitely help in all other aspects such as learning the subjects, getting employment, excelling in higher studies. The need of the hour, therefore, is ensure adequate communicative power to empower the youth in all their spheres. The newly introduced subjects are communicative skill-set builders. Only with the whole-hearted support of the teaching fraternity, these practices-driven and exercises-oriented subjects can achieve the stated objectives.

#### Course framework

Sem	Subject Titles	Skill Components to be addressed
III	Communication Skills I	Listening and Speaking skill development
IV	Communication Skills II	Reading and Writing skill development
V	Campus to Corporate	Etiquettes; Attire-related niceties; quantitative aptitude building; and e-communicative skills
VI	Soft Skills for Business	Presentation, negotiation, team-working skills; Resume preparation; and facing interviews &GDs.

#### **Course Objectives**

- To give the learners extensive practices to develop the LSRW (Listening and Speaking; Reading and Writing) skill-set
- To develop soft skills among the learners enabling them to communicate as effectively and efficiently as possible while dealing with others viz. peers, subordinates, superiors, clients, customers in the organization.

#### **Learning Outcomes**

- To hone their speaking and writing skills by reinforcing their listening and reading skills and habituatingthem
- To assist in developing their personality
  - To help the students in developing their communication skills through effective use of English To augment the areas such as business correspondence, presentation, group discussion, and interviews
  - To focus on to a chosen career path.

#### INSTITUTIONAL TRAINING \*

Curricular note on Skill enhancing core paper with Internal and External evaluation for 50 marks (2 Credits) for ALL streams of BBA.

Aims: The purpose of this skill enhancing (Training) core paper is to bridge the theoretical fundamentals with that of actual practice and to inculcate a spirit of inquiry & research rigor to investigate the nuances that go into the working of industry at large. Apartfrom adapting as team-worker, students are expected to gather, filter the required information and report the dynamics of the chosen industry in a standardized format.

**Process:**Colleges may institute MoU/ collaborative initiative with firms in their localityto get the consent and to make the training more purposeful. Every student, individually or in a group not exceeding three, shall undergo a four-week [a minimum of twenty working days] training in any organization [size, type and location to be specified by the respective college] of his/her choice during the vacation between fourth and fifth semester. In case of insufficient vacation, college level adjustments can be made to facilitate the students ontraining.

Prior permission may be obtained from the organization in advance by the students concerned and information shall be passed onto the colleges thus enabling the training supervision bythe concerned faculties authorized by the college.

Weekly postal or electronic reporting should be obtained to ensure coherent and comprehensive training during the training period. A final report [Institutional Training Record – ITR] containing the introduction of the industry, the profile of the company and a valid conclusion indicating the benefits of the training shall be given not exceeding 30 [A4] pages [in a spiral-bound form/pre-printed record designed for this purpose].

ReportingProforma:he profile of the company may include the organization-chart, people involved in key-positions, year of establishment and growth pattern (for at least five years), the products dealt and market to which it caters to, sales turn-over, market share [forlast three years], competitors'details, number of employees and their brief profile, share capital&

Share holding pattern, market capitalization (in case of listed public company), group companies, if any, awards & recognitions (if any received), litigations, if any involved and so on.

**Outcome**:Internal evaluation by the concerned training supervisor along with HOD shallbe made during the beginning of fifth semester for a max of 10 marks and report the same to the university. Metrics to be evaluated and its weightage are:

- Compliance of the procedure (permission seeking, informing in advance, weekly reporting and ITR submission) 5 marks
- Structure and neatnessof ITR 5 marks

#### **Evaluation Method:**

There shall be a university-approved comprehensive viva-voce examination at the end of fifth semester.

Students shall maintain a [Institutional Training Record – ITR] individually for the purpose of the oral examinations.

ITR shall also be evaluated jointly internal with an external examiner during the viva-voce examination.

The total mark of 40 for the skill enhancing core subjects shall be divided between internal and external evaluations and it is 15 and 25 marks respectively.
