Classifications
Hierarchical
Conceptual-classification – Top down such as DCC
Systematics- Bottom up such as Taxonomy in biology
Non-hierarchical
typology classification
defined through one or several of the essential variables for the domain classified
structural classification
relates to situations when classes correspond to subsystems of the domain classified, which is considered as a complex system in such a way that subsystem-to-subsystem interactions must be included in the classification as its class-to-class interrelations.
Stratification
reflects the inequality between entities rather than similarity
