Semester - 1

Course Code	Course Name	Category	Hours/Week	Credits
24MCO11C	Economics for Business	Core - I	6	4

Course objectives

This course intends to cover

- The learners to understand the Nature, Scope and Significance of Managerial Economics, its relationship with other Disciplines.
- The concepts of demand and supply relevance to managerial economics.
- The concept of price and non-price competition used by the sellers.

Course Learning Outcomes

On the successful completion of the course, students will be able to

CLO	CLO Statements	Knowledge Level
CLO1	Comprehend the fundamental concepts of managerial economics	K1 – K4
CLO2	Analyze demand and supply dynamics and apply it in real world	K2 - K3
CLO3	Apply production analysis principles, by understanding production functions, the laws of diminishing returns and variable proportions.	K3
CLO4	Differentiate between economic and accounting costs, and understand various cost concepts.	K4
CLO5	Capable of making pricing and output decisions in different market situations	K4
K1 - Remember; K2 - Understand; K3 - Apply; K4 - Analyze

Course Code	Course Name	Category	Hours/Week	Credits
24MCO13C	Fintech and Digital Banking	Core-III	6	4

Course Objectives

This course intends to cover

- The historical development, current trends, and future prospects of the Fintech.
- The various digital payment methods and block chain technology.
- The applications of AI and ML in finance. The insurtech and the latest innovations in insurance distribution, underwriting, claims management, and peer-to-peer insurance.

Course Learning Outcomes

On the successful completion of the course, students will be able to

CLO	CLO statements	Knowledge Level
CLO1	Understand the evolution, landscape, and key drivers of Fintech and digital finance innovations.	K2
CLO2	Analyze the functionality and applications of digital payment systems.	K4
CLO3	Demonstrate knowledge of Blockchain technology and its financial applications.	K3
CLO4	Apply (AI) and (ML) techniques in various financial services	K3
CLO5	Evaluate the innovations and impact of insurtech on insurance distribution, underwriting, and claims management.	K4
K1 - Remember; K2 - Understand; K3 - Apply; K4 - Analyze

Part – IV : Ability Enhancement Compulsory Courses

(All the Postgraduate Programmes)

Course Code	Course Name	Category	Hours/Week	Credits
24QUA1AE	Quantitative Aptitude	AECC - I	2	2

Course Objectives

The course intends to cover

- Basic concepts of numbers, time and work, interests, data representation and graphs
- Concepts of permutation, probability, discounts, percentage & profit loss.

Course Learning Outcomes

On the successful completion of the course, students will be able to

CLO	CLO Statements	Knowledge Level
CLO1	Remember and Understand the concepts of numbers and average	K1, K2
CLO2	Understand about percentage and apply profit & loss related processing.	K2, K3
CLO3	To understand the concepts of time and work and interest calculations.	K2
CLO4	To understand about the concepts of permutation, combination and probability.	K2
CLO5	Understand , Apply and analyze the concept of problem solving involved in graphs and age.	K2,,K3,K4
K1 - Remember; K2 - Understand; K3 - Apply; K4 -Analyze		

Ability Enhancement Compulsory Course - I: Quantitative Aptitude

Unit	Content	No. of Hours
I	Numbers - Simplification - BODMAS rule - Algebraic formulas - Decimal fractions - Square root and cube roots - Surds and indices - Divisibility rules - HCF and LCM - same remainder - different remainder - application problems – average – equation - mistaken value – replacement - including/excluding.	6
II	Percentage - increase/decrease – net change – salary – election – marks – consumption - population / machine - profit and loss - profit and loss % - finding cp and sp - profit=loss - same product cp and sp with percentage – discount - ratio and proportion - divided into parts - based on numbers - increase/decrease/ income / expenditure – coins – partnership.	6
III	Time-and-work - individual/combined - alternative days - remaining work - efficiency based - amount split - chain rule - group of male and female or boys - pipes and cistern - finding time - efficiency based – alternative - remaining part - capacity of the tank - simple interest - finding principal - rate of interest – amount -time period - doubles or triples - compound interest - finding rate - finding time, principal - doubles or triples - difference between SI and CI.	6
IV	Permutation - finding value - vowels come together - vowel never comes together -some letters come together - no two vowels come together - vowels in odd/even places - based on repetition - circular permutation – application – combination - finding value and application – probability – coins - dice-cards - balls and miscellaneous problems - odd man out and number series.	6
V	Clock - finding angle - reflex angle - gain or loss – calendars - finding particular day - data interpretation - bar chart - line chart - pie chart – table – combined –ages ratio-twice or thrice - addition /subtraction - family based - problems on numbers - equations.	6

Semester-2

Course Code	Course Name	Category	Hours/Week	Credit
24MCO21C	Block Chain for Finance	Core - V	6	4

Course Objectives

This course intends to cover

- The principles and components of Blockchain technology, and the emergence and impact of crypto currencies in the financial sector,
- The Application Blockchain technology financial services
- The regulatory and ethical implications of Blockchain technology and cryptocurrencies, examining global case studies and assessing compliance and security challenges

Course Learning Outcomes

On the successful completion of the course, students will be able to

CLO	CLO Statements	Knowledge Level
CLO1	Understand the foundational concepts of block chain technology,	K2
CLO2	Analyze the role and impact of crypto currencies in the financial sector, focusing on their functionality.	K4
CLO3	Demonstrate knowledge of smart contracts and their applications	K3
CLO4	Apply block chain technology to enhance financial services.	K3
CLO5	Evaluate the regulatory and ethical considerations of block chain and crypto currencies.	K4
K1 - Remember; K2 - Understand; K3 - Apply; K4 - Analyze

Course Code	Course Name	Category	Hours/Week	Credit
24MCO23C	Advanced Costing Techniques	Core-VII	6	4

Course Objectives

This course intends to cover

- The principles of cost management for quality control.
- The pricing method for the transfer of materials and solve real world problems.
- Construction of a cost structure for Agricultural and IT sector.

Course Learning Outcomes

On the successful completion of the course, students will be able to

CLO	CLO Statements	Knowledge Level
CLO1	Recall and apply strategic cost management principles and Quality Control measures	K1 – K3
CLO2	Select and relate the appropriate techniques for cost control	K2 – K3
CLO3	Make use of activity-based costing in practice	K3 - K4
CLO4	Choose transfer pricing methods to solve problems in the real world	K4
CLO5	Construct cost structure for Agriculture and IT sector	K5
K1 - Remember; K2 - Understand; K3 - Apply; K4 - Analyze; K5 - Evaluate

Core VII - Advanced Costing Techniques

Unit	Content	No. of Hours
I	Introduction to Cost Techniques : Introduction – Need– Differences between SCM and TCM- Value Chain Analysis: Meaning and steps - Quality Cost Management: Meaning of Quality and Quality Management – Cost of Quality – Indian Cost Accounting Standard 21 on Quality Control - Introduction to Lean System – Benefits of Lean System – Just in Time (JIT) – Kaizen Costing.	18
II	Cost Control and Reduction: Cost Management Techniques: Cost Control: Meaning and Prerequisites - Cost Reduction: Meaning and Scope – Differences between Cost control and cost reduction - Pareto Analysis: Meaning, importance and applications - Target Costing: Meaning, steps and Principles – Life Cycle Costing: Meaning, Strategies for each stage of product life cycle, Benefits – Learning Curve: Meaning, Learning curve ratio and applications	18
III	Activity based Costing: Activity Based Cost Management: Concept, Purpose, Stages, Benefits, Relevance in Decision making and its Application in Budgeting – Practical problems.	18
IV	Transfer pricing: Meaning, Benefits, Methods: Pricing based on cost, Market price on transfer price, Negotiated pricing and Pricing based on opportunity costs – Practical Problems.	18
V	Costing in Agriculture and IT Sector Agriculture Sector: Features, Cost Structure, Cost Management, Tools to measure the performance, Minimum Support Price and International Perspective –Information Technology Sector: Features, Cost Structure, Cost Management and International Perspective.	18

24MCO24P	Computer Applications : Advanced Spreadsheet	Core Lab - I	3	3

Course Objectives

This Course intends to cover

- Organization of data in a spreadsheet
- Spreadsheet with Advanced concepts and techniques
- Training in data analytics using Spreadsheet.

Course Learning Outcomes

On the successful completion of the course, students will be able to

CLO	CLO Statements	Knowledge Level
CLO1	Apply Spreadsheet's math functional features for data analysis and interpretation.	K1 – K3
CLO2	Analyze data using complex functions and tools	K1 – K3
CLO3	Apply logical functions in the real world to solve problems	K1 – K3
CLO4	Apply skills on PMT functions and features for data analysis and interpretation.	K1 – K3
CLO5	Apply skills on Pivot table for tabulating and analyzing	K1 – K3
K1 - Remember; K2 - Understand; K3 - Apply

Core Lab – I : Advanced Spreadsheet

S. No.	Exercises	No. of Hours
1	Create a Programme with the following details to perform Simple Math functions in Spreadsheet S.NO, Employee code, Name of the employee, Basic Pay, DA @ 15%, on basic pay, HRA @10% on Basic pay, CCA @ 5% on basic pay, TA @ 2% on gross pay, PF @ 5% on basic pay and other deductions if any. Calculate the net salary of an employee and also calculate average salary. Use math functions of addition, subtraction, multiplication, division, percentage, sum, and average.	6
2	Create a Programme to perform Math Functions in Spreadsheet [4 Hours] S.NO, Employee code, Name of the employee, Basic Pay, DA @ 14%, HRA @ 9%, CCA @ 4%, TA @ 1%, PF @ 8.5%, on basic pay other deductions and calculate net salary. Calculate using MIN, MAX, AVERAGE, COUNT, COUNT IF SUM, SUMIF functions	5
3	Create a Programme to perform Advanced Math Functions in Spreadsheet STDEV, BAR, ABS, EXP, VAR, INT, log 10, log, MOD, ROUND, SQRT and Auto sum.	4
4	Create Customers details of a Bank, perform Sort and Filter in Spreadsheet Sorting Alphabet & Numerical data Filtering Alphabet & Numerical data 10 Monthly payments of a loan Rs. 50,000 to be paid in full over 5 years in the rate of 5% per year. Assume payment made at the end of each month. Calculate monthly payments to be made using PMT function in Spreadsheet.	5
5	A company offering installment sale, the installments are preferred over 50 installments, the monthly repayment amount 15,000, price of the product is 10,00,000. What rate of interest the seller can offer per month and per year. Calculate using RATE function in Spreadsheet.	4
6	Calculate NPER in Spreadsheet. How many payment you must pay to reach a value of Rs. 10 lakhs for investment at an annual interest rate of 10%, monthly payments in the amount of Rs.1000. The initial payment already paid amounted to Rs. 1,50,000. the payment should be paid at the end of each month	5
7	Create an Spreadsheet with the available data of price list of any ten stationery items. With S.No; Item Code: Item name : Rate and perform the following: a) Add the columns total cost per item, VAT and Cost + VAT b) Fill in the V.A.T value (2%) in one of the cells say G1 so as to not to affect the other calculations. c) Multiply quantity*cost per item to obtain the total cost (Using Math Function)	5

8	Prepare a student mark statement Using Logical IF/AND functions in Spreadsheet Perform Logical IF/OR/NOT functions.	5
9	Using PIVOT table perform the sales volume and Percentage by store, month and Product type a) Calculate percentage of sales occurs at each store b) Calculate percentage of sales occurs at each month c) How much revenue does each product generate?	6

24MCO1AE	Cost Accounting Methods	Elective - I	5	4

Course Objectives

This Course intends to cover

- The aspects of cost accounting, beginning with an exploration of its definition, scope, and classification.
- The role of costing as a management tool and explore different types and methods of cost determination.
- The key elements of cost, including materials, labor, and overhead, and how these elements impact a company's financial performance.

Course Learning Outcomes

On the successful completion of the course, students will be able to

CLO	CLO Statements	Knowledge Level
CLO1	Recollect the concepts, classification and elements of cost.	K1
CLO2	Evaluate cost of Jobs and Contracts	K2 – K5
CLO3	Analyze batch costing and its cost reduction techniques	K2 – K4
CLO4	Solve process costing real time problems	K4
CLO5	Determine and Prepare Standard costing and analyse variance.	K3, K4
K1 - Remember; K2 - Understand; K3 - Apply; K4 - Analyze

24SOF2AE	Soft Skills	AECC - II	2	2

Course Objectives

The course intends to cover

- The essential soft skills that is crucial for success in today's dynamic and interconnected workplace.

Course Learning Outcomes

On the successful completion of the course, students will be able to

CLO	CLO Statements	Knowledge Level
CLO1	Understand the comprehensive skills to participate actively in conversation, writing short texts with expression	K1, K2, K3
CLO2	Infer the cohesive devices to describe and discuss any objects, pictures using compound, complex sentence forms.	K2, K3
CLO3	Comprehend the logic in the given situation to organize the ideas to write formal and informal letters.	K2, K3
CLO4	Understand the given material to organize it in a logical sequence to present a paragraph with main and supporting ideas with concluding sentences.	K3
CLO5	Present valuable ideas in conversation to emulate the main ideas and key points in short essays.	K3
K1 - Remember; K2 - Understand; K3 - Apply;		

Ability Enhancement Compulsory Course - II : Soft Skills

Unit	Details	No. of Hours
I	Presentation Skills : Getting to Know You: Grammar: Introduction to Tenses; Listening: Fill in the blanks; Speaking: Self Introduction, Everyday English, Role-Play; Reading: Different ways of communication. My Day: Grammar: Present simple positive & negative / Adverbs of Frequency; Vocabulary & Speaking: Daily Activities; Listening: Observe and Answer / Telling the time; Reading & Writing: Describe where you live. Your World: Grammar: Possessive determiners; Vocabulary & Speaking: Talk about countries, nationalities; Listening: Positive & negative contractions; Reading & Writing: Personal profile. The World Of Work: Grammar: Yes/No & Wh Questions; Vocabulary & Speaking: Jobs; Listening: Recognize the schwa sound; Reading & Writing: Opening and closing an email. Places And Things: Grammar: There is / there are, articles; Vocabulary & Speaking: Talk about rooms & furniture; Listening: Directions; Reading & Writing: Imperatives. 24 Hours: Grammar: Likes & Dislikes; Vocabulary & Speaking: Speak about hobbies and interests; Listening: Observe & answer; Reading: Match the photos with descriptions; Writing: Write complete sentence using prompts;	6
II	Confidence : Clothes and Shopping: Grammar: Modal verbs / Adverbs of Frequency / Adjectives and Adverbs; Vocabulary & Speaking: Shopping; Listening: Observe and Answer; Reading & Writing: Product Review. Travel & Transport: Grammar: Past simple questions; Vocabulary & Speaking: Talk about holidays; Listening: At the train station; Reading & Writing: Email - A perfect holiday. Health & Fitness: Grammar: Past simple irregular verbs; Vocabulary & Speaking: Talk about a healthy lifestyle; Listening: Listen & Answer; Reading & Writing: Time sequencers. Music: Grammar: Present perfect simple; Vocabulary & Speaking: Survey about music; Listening: Listen two people talk about music; Reading: Use adjectives and create sentences. Let's go shopping: Grammar: Countable & Uncountable; Vocabulary & Speaking: Town Survey; Listening: Listen and answer; Reading & Writing: Read and match	6
III	Creativity :Cooking & Eating: Grammar: Some & Any, Quantifiers; Vocabulary & Speaking: Food & Drink; Listening: Kitchen conversation; Reading & Writing: Article reading & answering. Survival: Grammar: Comparison of adjectives; Vocabulary & Speaking: Describing people; Listening: Listen & Answer; Reading & Writing: Read and Answer. Working Together: Grammar: Verb + Noun phrases; Vocabulary & Speaking: Talk about technology; Listening: Listen & Answer; Reading & Writing: Notice. Music: Grammar: Present perfect simple; Vocabulary & Speaking: Survey about music; Listening: Listen two people talk about music; Reading: Use adjectives and create sentences. Culture and Arts: Grammar: Present perfect; Vocabulary & Speaking: Speak on the phone; Listening: Listen and answer; Reading & Writing: Review	6

Unit	Content	No. of Hours
IV	Problem-Solving :Do's and Don'ts: Grammar: Modal verbs; Vocabulary & Speaking: Role play; Listening: Holidays in January; Reading & Writing: Article reading & answering. Body: Grammar: First conditional; Vocabulary & Speaking: Personality & Appearance; Listening: Listen to conversations about personality; Reading & Writing: Read and Answer about your skills. Speed: Grammar: Present simple passive; Vocabulary & Speaking: Talk about relationships; Listening: Listen & Answer; Reading & Writing: Error spotting. Work: Grammar: Adverbs of manner; Vocabulary & Speaking: Talk about work advice; Listening: Observe & Answer; Reading: Read & check your ideas	6
V	Critical Thinking : Influence: Grammar: would / past habits; Listening: Sentence Correction; Speaking & Vocabulary: Your inspiration; Reading: Picture description; Writing: Rewrite the sentences. Money: Grammar: Second conditional; Listening: radio programme; Speaking & Vocabulary: Talk about games; Reading & Writing: Fill in the blanks. Things that changed the world: Grammar: articles; Speaking & Listening: Talk about chewing gum; Reading & Writing: Read and write a book review	6

24MCO32C	Advanced Management Accounting	Core-IX	6	4

Course Objectives

This Course intends to cover:

- Equip learners with the analytical skills needed to interpret financial statements enabling them to make informed managerial decisions.
- Assist learners to apply accounting tools and techniques to optimize business performance.
- Teach learners to identify and manage costs effectively, fostering a deeper understanding of cost control measures and efficiency improvement

Course Learning Outcomes

On the successful completion of the course, students will be able to:

CLO	CLO Statements	Knowledge Level
CLO1	Analyze and interpret key financial statements to assess a company's financial health and operational performance.	K1 – K4
CLO2	Demonstrate the ability to apply various costing techniques to determine the costs associated with products, services, and processes.	K2 - K3
CLO3	Create and manage budgets, use variance analysis, and perform financial forecasting	K3
CLO4	Evaluate potential investments, analyze cost-benefit scenarios, and assess financing options.	K4
CLO5	Learn to use accounting information for internal decision-making, focusing on improving operational efficiency.	K4
K1 - Remember; K2 - Understand; K3 - Apply; K4 – Analyze

Course Objectives

This Course intends to cover:

- The objectives typically aim to equip students with the advanced knowledge and skills needed to conduct high-quality research
- Aims to prepare students for conducting independent research projects and critically engaging with academic literature in their chosen field of study

Course Learning Outcomes

On the successful completion of the course, students will be able to

CLO	CLO Statements	Knowledge Level
CLO1	Identify research questions to formulate suitable research design.	K2
CLO2	Apply different methods of research based on selected research problem.	K2 – K4
CLO3	Design research instruments for collecting required data.	K4
CLO4	Analyze statistical data to support fact-based decision making	K4
CLO5	Develop independent thinking for critically analyzing research reports.	K5
K1 - Remember; K2 - Understand; K3 - Apply; K4 – Analyze; K5 – Evaluate.

24MCO34P	Computer Applications : Tally with GST	Core Lab- III	4	2

Course Objectives

This Course intends to cover:

- To equip learners with the fundamental knowledge of accounting practices and their application in Tally ERP and Tally Prime.
- To comprehensively understand the Goods and Services Tax (GST), including GST structure, rates, compliance, and tax filings.
- To familiarize learners with Tally software, enabling them to create and manage company accounts, ledgers, and vouchers effectively.

Course Learning Outcomes

On the successful completion of the course, students will be able to

CLO	CLO Statements	Knowledge Level
CLO1	Set up and configure a company in Tally, including GST registration details and statutory requirements.	K1 – K3
CLO2	Create ledgers; manage accounts, and record basic voucher entries such as payments, receipts, sales, and purchases.	K1 – K3
CLO3	Manage inventory in Tally, including stock items, stock groups, and stock adjustments with GST applications.	K1 – K3
CLO4	Generate key financial statements (Profit & Loss, Balance Sheet) and GST returns (GSTR-1, GSTR-3B) using Tally.	K1 – K3
CLO5	Understand the basics of TDS (Tax Deducted at Source) and TCS (Tax Collected at Source) and be able to record these transactions and generate reports.	K1 – K3
K1 - Remember; K2 - Understand; K3 - Apply

Core Lab– III: Computer Applications : Tally with GST

S.No.	Exercises	No. of Hours
1	Introduction to Tally and GST: Overview of Tally ERP 9 and Tally Prime - Importance of Tally in accounting and GST compliance - Basics of GST: types of taxes (CGST, SGST, IGST), GST registration, and GSTIN - Setting up Tally software. Setting Up Company Details in Tally: Creating a new company in Tally - Configuring GST details for the company - Defining financial year, contact details, and statutory information - Enabling tax settings and compliance features. Basics of Accounting in Tally: Understanding ledgers and groups in Tally - Creating, editing, and managing ledgers - Types of vouchers: payment, receipt, sales, and purchase vouchers - Basic voucher entries with and without GST.	3
2	Inventory Management in Tally: Introduction to inventory features in Tally - Creating stock groups, stock categories, and stock items - Units of measure and Godown creation - Basic inventory vouchers (e.g., stock in/out) and stock adjustment entries. GST Configuration and Master Setup: Enabling GST in Tally and configuring GST rates - Creating GST ledgers for CGST, SGST, IGST, and cess - Configuring stock items with HSN codes and GST rates - Understanding reverse charge mechanism and exempted goods. Recording GST Transactions in Tally: Recording sales and purchase transactions with GST - Creating GST-compliant invoices - Understanding Input Tax Credit (ITC) and its application - Recording GST on advances received and paid.	3
3	Generating GST Returns and Reports: Understanding different types of GST returns (GSTR-1, GSTR-2, GSTR-3B) - Generating GSTR-1 and GSTR-3B in Tally - Creating GST summary reports and tax computation reports - Exporting GST reports for filing. Accounting for TDS and TCS in Tally: Basics of TDS (Tax Deducted at Source) and TCS (Tax Collected at Source) - Configuring TDS and TCS in Tally - Recording TDS and TCS transactions - Generating TDS and TCS reports. Payroll Management in Tally: Introduction to payroll features - Creating employee groups, salary details, and pay heads - Processing payroll and generating pay slips - Statutory compliance in payroll: PF, ESI, and professional tax. Final Reporting and Backup: Generating financial reports: Profit & Loss, Balance Sheet, and Cash Flow - Reviewing GST, TDS, and inventory reports - Backup and restore company data in Tally - Exporting and printing reports for compliance and records.	3
4	Introduction to Tally and Company Setup Launching Tally ERP 9/Tally Prime and understanding the interface Creating a new company in Tally, Configuring basic company details, including financial year and contact information, Enabling GST and other statutory features	3
5	Setting Up Ledgers and Groups Creating basic ledgers for accounts like Sales, Purchases, Cash, and Bank Organizing ledgers into groups (e.g., Assets, Liabilities, Income, Expenses) Setting up GST-specific ledgers (CGST, SGST, IGST) Editing and deleting ledger entries	3
6	Basic Voucher Entry in Tally Creating and recording basic vouchers: Payment, Receipt, and Journal Recording sample transactions (e.g., cash purchase, sales on credit) Using contra vouchers for bank-to-cash transfers	3
	Practicing simple accounting entries without GST	

S. No	Exercises	No. of Hours
7	Inventory Setup and Management Creating stock groups, categories, and stock items Defining units of measure (e.g., pieces, kilograms, liters) Recording opening stock and stock adjustments Configuring stock items with GST rates and HSN codes	3
8	Configuring GST in Tally Enabling GST and setting up GST details in company settings Configuring GST rates for items and ledgers Practicing GST registration details and GSTIN entry Exploring GST rate setup for different tax slabs	4
9	Recording Sales and Purchase Transactions with GST Recording sales transactions with GST: creating GST-compliant sales invoices Recording purchase transactions with GST and applying Input Tax Credit (ITC) Handling reverse charge transactions in sales/purchase vouchers Practicing GST adjustments in voucher entries	4
10	Generating GST Reports and Returns Generating GSTR-1 (outward supplies) and GSTR-3B reports in Tally Exploring GSTR-2 (inward supplies) and reconciliation reports Analyzing GST summaries and tax computation reports Exporting and printing GST reports for compliance	4
11	TDS and TCS in Tally Setting up TDS and TCS configurations in Tally Recording transactions with TDS/TCS deductions Generating TDS and TCS reports Practicing TDS return filing preparation	4
12	Payroll Management Basics Setting up payroll in Tally: creating employee records and pay heads Recording attendance and processing payroll Calculating payroll with statutory deductions (PF, ESI) Generating pay slips and payroll reports	4
13	Generating Financial Statements and Data Backup Generating Profit & Loss Account, Balance Sheet, and Cash Flow Statement Reviewing inventory reports and stock summaries Practicing data backup and restoration in Tally Exporting reports to PDF and Excel formats for records	4

Course Code	Course Name	Category	Hours/Week	Credits
24MCO3AE	Wealth Management for Individuals	Elective - III	5	4

Course Objectives

This Course intends to cover

- To provide students with a thorough understanding of the wealth management process, including goal setting, risk assessment, and client profiling.
- To enable students to analyze and evaluate various asset classes for effective portfolio construction and financial decision-making.
- To train students in retirement and estate planning strategies while emphasizing ethical practices and the role of professional wealth managers.

Course Learning Outcomes

On the successful completion of the course, students will be able to

CLO	CLO Statements	Knowledge Level
CLO1	Understand and explain the stages of the wealth management process and identify client goals, constraints, and risk profiles.	K1 , K2
CLO2	Evaluate different classes of assets such as equity, debt, mutual funds, and real estate, and assess their suitability in wealth portfolios.	K2 - K3
CLO3	Analyze and apply investment strategies based on risk-return trade-offs, diversification principles, and client objectives.	K3
CLO4	Design retirement and insurance plans tailored to individual needs, considering inflation, income sources, and financial security.	K4
CLO5	Demonstrate knowledge of estate planning tools such as wills, trusts, and powers of attorney, and apply them in real-life financial scenarios.	K4
K1 - Remember; K2 - Understand; K3 - Apply; K4 - Analyze
