@Pragadesh Mahalingam wanted to know if there were other material like PointerCamp.

1. For recursion (and if you want to start from the basics), use <http://j.mp/rTutorial> - the problem description itself has solutions for most of the problems. However, don't look at them until you have tried to solve the problems first. Otherwise, you will rob yourself of the opportunity to think on your own.
2. Almost every problem in PointerCamp, can also be attempted by combining recursion
